To the Queen's Most Excellent Majesty

May it please your Majesty We your Majestys Loyal subjects resident at Port Nicholson in New Zealand, beg to approach you Majesty with assurances of our most respectful and devoted attachment to your Royal person and Government. We humbly thank your Majesty for the Gracious consideration of our necessities as a new and rising community; as manifested by your Majesty's directions to your Ministers to establish British law and authority in this part of your Majesty's dominions, and in the appointment of a Lieutenant Governor to carry your Royal instructions into effect. But duty to our Sovereign, as well as justice to ourselves, compels us to state that the wise and Gracious designs of your Majesty have been in a great measure frustrated, by the neglect and misconduct of Lieutenant Governor Hobson. We desire to represent to your Majesty, that the Settlement of Port Nicholson comprises the large majority of your Majesty's subjects resident in the Islands of New Zealand; that the population is rapidly increasing; that the natural productions of the Country ensure the rapid development of its extensive agricultural, commercial, and manufacturing resources; that already the commerce of Port Nicholson is much more considerable than that of any other port in the Islands; that its geographical position must give it great political importance; and that in no part of the British Empire are your Majesty's subjects more distinguished by ready obedience to lawful authority; or by a more earnest determination to maintain the honour and dignity of the British Crown. Notwithstanding these claims on his attention; claims which we humbly submit ought to have decided Lieutenant Governor Hobson to fix the seat of Government at Port Nicholson – His Excellency has never even visited this important and flourishing Settlement, but has selected for his Capital a portion of the Northern Island three hundred miles distant from us, where there are no British residents except those immediately connected with Government. Communication with the Government is thus rendered uncertain, unfrequent, difficult and expensive. In short, nearly all those over whose welfare Lieutenant Governor Hobson was instructed to watch; and from whose contributions the cost of establishing the rival settlement must be chiefly defrayed and the revenue of the Colony mainly derived, are almost entirely excluded from the benefit of any Government at all, with the single exception of a Police Magistrate with undefined criminal jurisdiction. But in addition to this systematic neglect of our welfare, we have to charge Lieutenant Governor Hobson with an attempt to inflict upon us a serious positive injury. Your Majesty's attention is called to the facts, that a great scarcity of skilled labour exists in this

Settlement, that the Artificers and Labourers resident here have been brought from England at the expence of the landholders and Capitalists of Port Nicholson; with the understanding and in the full belief that they were to remain here for an indefinite period; that employment of this valuable and most respectable portion of our community at high wages is constant; and the demand for their services increasing; and that the prosperity of the Settlement mainly depends upon a sufficient supply of this description of labour. Nevertheless, and with a perfect knowledge of diminishing the supply, Lieutenant Governor Hobson has sent a vessel from Auckland, his seat of Government, with offers of a free passage and other advantages to such Artificers and Labourers as may be induced to leave the service of your Petitioners, and enter into his employment. The cost of sending down this ship for the above purpose will be defrayed from the public revenue, and thus, the settlers of Port Nicholson will have not only paid for the passage of their workmen from England, but will also be taxed to pay the cost of seducing them to Auckland. We would humbly represent to your Majesty, that the attempt to promote the prosperity of one part of your Majesty's dominions in New Zealand, by inflicting a grievous and lasting injury on another, and far more important portion, is in principle unjustifiable; and that this species of competition of a Government with its subjects, is opposed to the principles of the British Constitution; and is moreover decidedly repugnant to the instructions which Lieutenant Governor Hobson was commanded by your Majesty's Government to obey. Hopeless of redress from his Excellency the Lieutenant Governor, of whose unhappy and illjudged hostility to this Settlement we have received but too many proofs; and relying upon your Majesty's material care for the welfare of your subjects, whether at home or abroad; we humbly solicit your Majesty's most gracious interference on our behalf by recalling Lieutenant Governor Hobson and affording us such other relief as to your Majesty shall seem fit. And your Petitioners, as in duty bound will ever pray &c.
